155		Blush	Sweet, fruity flavor has universal appeal. Beautiful, bright yellow snacking tomato. Red stripes appear as blossom-end red marbling develops. Strong plants tolerate tough conditions. Great in mixes with the other Artisan tomatoes.	Indet. 70 Days 2.5 in long OP	Johnny's
156		Golden Storage	One of the best storage tomatoes and worth keeping for its delicious flavor. When picked green the 2 ¼–2 ½ inch fruit will be golden and ripe within 1–1 ½ months, and then will store 1 ½–3 months longer! Why buy store bought tomatoes in the winter when you can enjoy your own?	Indet. 70 days OP	Territorial
157		Japanese Trifele Black	Pear-shaped fruit has green-streaked shoulders, deepening to a burnished mahogany and finally to a nearly black base. The meaty interior has similar, opulent shades and an incomparable, complex, rich flavor to match.	Indet 80 days 2½ in OP Mid-Season	Territorial

<h1>158</h1>		<p>Longkeeper</p>	<p>This tomato will keep up to 3 months! Gather mature green or partially ripe fruit before first frost. Place the in nursery flat, or on newspaper on a shelf in a single layer without touching. Storage temperatures should be 55-75°F, and out of direct light</p>	<p>Semi-det 70 days 3 in OP Late Season</p>	<p>Territoial</p>
<h1>159</h1>		<p>Sweet Pea Currant</p>	<p>Deceptively big on flavor, they are a treat in salads, as a garnish or right off the plant by the handfuls! Sweet Pea is a charming, plant with a low, spreading habit that lends itself to container living and especially to hanging baskets.</p>	<p>Indet 62 days ¼ in OP</p>	<p>Currant</p>
<h1>160</h1>		<p>Take a Chance</p>	<p>These tomato plants lost their tags. They could be any kind. Take a chance and see what you get.</p>
