74		Beaver-lodge 6808	Very early maturing varieties. Plants are so loaded with tomatoes that there seems to be Extremely compact, determinate plants tend to creep rather than grow tall and would be perfect in a hanging basket or patio container. Flavor is rich and balanced. Bred at the Beaverlodge Research Center in Alberta, Canada	Determinate 55 days 1.5 inch OP	Territorial
75		Bloody Butcher	Very popular, very early producing tomato variety. Vigorous, potato-leaf plants that yield copious amounts of fruits that are deep-red color, inside and out. Five to nine fruits per cluster with a rich heirloom tomato flavor. Produces well until frost. Good variety for cooler regions and for canning.	Indet 54 days 2 inch/4 oz OP Early Season	Tomato Fest
76		Bobcat	Picture-perfect, smooth-skinned fruit have firm, meaty, gloriously red flesh and a classic tomato shape. These impressive slicers load heavily on powerful, strapping, determinate plants. Quick to mature, you can be enjoying Bobcat earlier in the season than most other early varieties	Determinate 68 days 10 oz Hybrid (F1) Early Season	Territorial Seeds

77		Crimson Sprinter	Brilliant candy apple red fruit and strong performance in cool conditions. Fruits are early, abundant and ripen well on the vine. The earliest cultivar to carry the famous crimson gene for high lycopene. Holds well due to its thick skin.	Indet 65 days 5-7 oz OP Early Season	Restoration Seeds
78		Early Doll	One of the earliest tomatoes. Bright red, globe shaped fruits combine an outstanding tomato flavor with an early maturity every gardener will appreciate. Excellent for salads, salsas, or slicing.	Determinate 55 Days 4-5 oz Hybrid	Seeds N Such
79		Early Girl	Bears lots of fruit for early harvest, and continues producing through summer. Many gardeners plant it again late in the summer so that it will produce a huge fresh crop of "fall tomatoes" quickly before frost.	Indet 50 days 6-8 oz Hybrid (F1) Early Season	Ferry-Morse
80		Early Wonder	Extra-early maturing and compact variety that yields an abundant crop of round, dark-pink, great-tasting fruit. Perfect for gardeners in shorter season growing climates. A very good choice for container gardening.	Determinate 54 Days 6 oz OP Very Early	Tomato Fest

81		Fourth of July	The fruit's main attractions are its early arrival, its dependability, disease resistance, and the sheer volume of fruit it produces. Even for an early tomato, critics agree it has a better-than-average taste. The only drawbacks mentioned regularly about this tomato are thicker-than-normal skin and occasional cracking	Indet 49 days 1.5 inches Hybrid	Burpee
82		June Pink	Yields clusters of 4-6 beautiful, uniformly round, rose-pink tomatoes. Wonderful sweet/tart flavors. Produces well until frost and appears to have good disease resistance. A good, prolific tomato for both hot and cooler growing regions	Indet 68 days 4-5 oz OP Early Season	Tomato Fest
83		Kimberly	Produces 6', indeterminate, potato-leaf tomato plants. Yields golf ball-sized tomatoes. Surprisingly good flavor for such an early tomato. Sets well in warmer growing regions and produces well into autumn. Great tomato for patio or container garden.	Indet 68 days 1 – 1½ in OP Early Season	Tomato Fest
84		Momotaro	One of the most popular tomato varieties in Japanese markets and for good reason. Its flavor is an intricate and harmonious combination of sweet and tangy that has won several tomato tasting contests. It is durable, heat tolerant, and crack resistant with good storability.	Indet 70 days 6-7 oz Hybrid	Territorial Seed

85		Oregon Spring	Oregon Spring will produce incredibly early yields of oval tomatoes when planted outside a month before your last frost date and given no protection except on frosty nights.	Determinate 65-70 days 3-5 oz OP Early Season	Territorial Seed
86		Siletz	One of the most reliable slicing tomatoes you can grow. Comes in just ahead of Oregon Spring. The flavor-packed red tomatoes are nearly seedless. Expect several bursts of ripe tomatoes as the season progresses.	Determinate 70 days 4 in OP Early Season	Territorial Seed
87		Slava	Potato leaf variety from Czech Republic. Name means Glory. Produces abundant quantities of red, round, early tomato. Delicious tomatoey flavors. Excellent choice for canning, or sliced into salads. Blight resistant.	Indet 65 days 1-2 oz 2 in OP Early Season	Tomato Fest
