

Number	Photo	Name	Description	Information	Seed Source
175		Blush	Sweet, fruity flavor has universal appeal. Beautiful, bright yellow snacking tomato. Red stripes appear as blossom-end red marbling develops. Strong plants tolerate tough conditions. Great in mixes with the other Artisan tomatoes.	Indet. 70 Days 2.5 in long OP	Johnny's
137		Costoluto Fiorentino	Costoluto refers to the distinct flattened, heavily-ribbed shape of various Italian heirlooms. This gorgeous selection comes from Florence and impressed us with its early maturity. Fruit are juicy and flavorful for slicing but really shine when slow-roasted or cooked down into a rich sauce. Performs well in both hot and cooler climates.	Indet 80 days 4.5 in x 1.5 in 8 oz OP	Territorial
176		Japanese Trifele Black	Pear-shaped fruit has green-streaked shoulders, deepening to a burnished mahogany and finally to a nearly black base. The meaty interior has similar, opulent shades and an incomparable, complex, rich flavor to match.	Indet 80 days 2½ in OP Mid-Season	Territorial
177		Longkeeper	This tomato will keep up to 3 months! Gather mature green or partially ripe fruit before first frost. Place the in nursery flat, or on newspaper on a shelf in a single layer without touching. Storage temperatures should be 55-75°F, and out of direct light	Semi-det 70 days 3 in OP Late Season	Territoial

124		Santiago	Plant produces a prolific amount of flattened and lightly fluted, red beefsteak tomatoes that have a good tart and very pronounced sweet flavors. A very good canning tomato, and wonderful snacking fresh off the vine. Seems to do very well in hot climates.	Indet 68 Days 8-10 oz OP Early Season	Tomato Fest
139		Schimmeig Striped Hollow	Large hollow cavity is ideal for stuffing in summer salad dishes. Beautiful yellow- orange with light red streaks. Prefers dry climates, do not over water, trellis.	Indet 3-5 in OP Mid-Season	Restoration
178		Speckled Peach	Slightly oval, dark pink, slightly fuzzy (like a peach) fruit with few scattered tiny speckles. Deliciously Sweet!	Indet 79 Days 2 in Mid Season	Tomato Fest
179		Sweet Pea Currant	Deceptively big on flavor, they are a treat in salads, as a garnish or right off the plant by the handfuls! Sweet Pea is a charming, plant with a low, spreading habit that lends itself to container living and especially to hanging baskets.	Indet 62 days ¼ in OP	Currant
140		Tim's Black Ruffles	Yields beautiful, brilliant garnet purple and pleated tomatoes. Fruit is packed with the delicious flavors. Sweet, well-balanced and meaty. Makes a great purple tomato sauce and addition to tomato salad.	Indet 78 days 8 oz OP Mid-Season	Tomato Fest

141		Tlacolula Ribbed	Red pink ribbed pear shaped Mexican heirloom, slightly hollow with occasional light green striping, few seeds. Similar to Zapotec Pink Pleated. Mild nutty sweet flavor.	Indet 80-90 days 8-12 oz OP Late Season	
142		Yellow Stuffer	High yields of shiny yellow tomatoes that look like a bell pepper. Excellent gourmet variety for slicing or stuffing. Has extended shelf life and stores well (up to 4 weeks in the refrigerator).	Indet 85 days 5-7 oz OP Late Season	Restoration Seeds
143		Zapotec	Prolific indeterminate, regular leaf plant producing large, deeply pleated, (almost triangular in shape) pink-red fruit, with a somewhat hollow interior and mild sweet flavors. Popular for baking, grilling or stuffing.	Indet 85 Days 10-16 oz OP Late Season	Tomato Fest
180		Take a Chance	These tomato plants lost their tags. They could be any kind. Take a chance and see what you get.
